

IMPACT. SCIENCE. SOLUTIONS.

National Council for Air and Stream Improvement, Inc. **Job Description**

Position: Hydrologist I (4 positions; 2 positions in OR, 2 position in WA)
Reports to: Forest Watershed Scientist
Work Week: 40 hours per week
Revised: April 21, 2025
Duty Station: Coast Range and western Cascades, Oregon/Washington (near Corvallis, OR, or near Vancouver, WA)
Duration: Seasonal Position, July 1 through September 30, 2025 (3 months)
Salary: \$21.35 to 25.00/hour, commensurate with experience, no housing provided.
Key Words: Forest hydrology, aquatic habitat, managed forests, western OR/WA
Benefits: Position not eligible for benefits, does provide paid designated holidays

Essential Job Functions:

1. Conduct streamflow duration surveys following established methodology.
2. Collect aquatic habitat data, identify hydrological classification of streams during low flow.
3. Position will require working outdoors in inclement weather, often in recently harvested forest stands. Must be able to get to and work from remote locations, drive forest roads, read maps, navigate through a forested landscape, and relate well with the public.
4. Possess ability to carry-out associated field work that may involve prolonged (multi-day) exposure to inclement conditions and a necessity to hike carrying equipment (20 pounds or more) over rough terrain (for 2 miles or more).
5. Gather and analyze data and related information using USGS FLOWPER application.
6. Willingness to have a flexible work schedule.
7. Overnight camping near study sites is expected.
8. Demonstrate an ability to work effectively with others toward meeting the goals of NCASI.
9. Develop a familiarity with NCASI's mission, policies, practices, and procedures.
10. Become acquainted with the environmental issues of the forest products industry.
11. Read, absorb, process, and communicate complex information. Assist the supervisor in responding to technical queries by NCASI clients and others in a competent and timely manner.

Additional Responsibilities:

1. Undertake additional activities as assigned by Supervisor.
2. Follow all safety protocols.
3. Pass a mandatory pre-employment drug test.

Minimum Qualifications:

1. Bachelor's degree in a hydrology or aquatic ecology discipline or related environmental field.
2. Experience with aquatic habitat and stream classification sampling protocols

3. Must have driving record which can be approved by Federal Agencies to drive government vehicles and insured at standard rates.
4. Basic data entry experience (Microsoft Excel).

Preferred Qualifications:

1. Experience navigating managed forest roads and terrain
2. Experience implementing standard protocols for collection of aquatic physical, chemical, or biotic data.

To Apply: Send cover letter, resume, and 3 references with phone numbers and e-mail addresses to: Laurie Clark at lclark@ncasi.org, specifying “**Hydrologist**” in the subject line. Applicant review will begin April 29, 2025, and continue until the position is filled. NCASI is an equal opportunity employer.
