

## Best Practices for Chemical Management Reporting

This workshop will provide a review of actions helpful to members interested in evaluating existing practices or upgrading practices for the management and reporting of chemicals. Aspects related to regular operations and for activities that occur less frequently will be covered.

### Planned Agenda

#### Scope and Components of a Comprehensive Chemical Management Plan

*Jim Witkowski, Arcadis*

*Mark Vagasky, Trinity Consultants*

#### Practices for Review of New Chemicals Brought On-site

*Randy Abston, Packaging Corporation of America (invited)*

#### Managing Contract Laboratory Testing Programs

*Dr. Matthew Booth, NCASI*

#### Addressing homeland security requirements

*Larry Fitzgerald, TRC Solutions*

#### Chemical Data Reporting (CDR) under TSCA – preparing for the 2020 reporting period

*Paul Wiegand, NCASI*

#### Tips for managing TRI 311-312 reporting

*Dr. Zachery Emerson, NCASI*
